Additionally, Passaic Valley Water Commission has $5,000 deductible for property and a $500,000 SIR for workers compensation. For workers' compensation, the Fund insures the $100,000 excess of the $500,000 SIR. The North Bergen MUA and the Plainfield MUA have a $25,000 deductible for workers' compensation with the Fund providing an aggregate.

l) Cyber Liability – Please contact your Executive Director or Risk Manager

4.) **The amount of unpaid claims to be established.**

a.) The general reserving philosophy is to set reserves based upon the probable total cost of the claim at the time of conclusion. Historically, on claims aged eighteen (18) months, the Fund expects the claims servicing company to set reserves at 85% accuracy. The Fund also establishes reserves recommended by the Fund's actuary for claims that have been incurred but not yet reported so that the Fund has adequate reserves to pay all claims and allocated loss adjusted expense liability.

b.) Claims reserves are subject to regular review by the Fund's Executive Director/Administrator, Attorney, Executive Committee and claims servicing company. Reserves on large or unusual claims are also subject to review by the claims departments of the commercial insurance companies or reinsurance companies providing primary or excess coverage's to the Fund.

5.) **The method of assessing contributions to be paid by each member of the Fund.**

a.) By November 16th of each year, the actuary computes the probable net cost for the upcoming Fund year by line of coverage and for each prior Fund year. The actuary includes all budget items in these computations. The annual assessment of each participating authority is its pro rata share of the probable net cost of the upcoming Fund year for each line of coverage as computed by the actuary.

b.) The calculation of pro rata shares is based on each authority's experience modified manual premium for that line of coverage. The Fund's Commissioners also adopts a capping formula which limits the increase of any member's assessment from the preceding year to the Fund wide average increase plus a percentage selected by the Commissioners. The total amount of each member's annual

assessment is certified by majority vote of the Fund's Commissioners at least one (1) month prior to the beginning of the next fiscal year.

c.) The treasurer deposits each member's assessment into the appropriate accounts, including the administrative account, and the claim or loss retention trust fund account by Fund year for each type of coverage in which the member participates.

d.) If a local unit becomes a member of the Fund or elects to participate in a line of coverage after the start of the Fund year, such participant's assessments and supplement assessments are reduced in proportion to that part of the year which had elapsed.

e.) The Fund's Commissioners may by majority vote levy upon the participating authorities additional assessments wherever needed or so ordered by the Commissioner of Insurance to supplement the Fund's claim, loss retention or administrative accounts to assure the payment of the Fund's obligations. All supplemental assessments are charged to the participating authorities by applicable Fund year, and shall be apportioned by the year's assessments for that line of coverage.

f.) Should any member fail or refuse to pay its assessments or supplemental assessments, or should the Fund fail to assess funds required to meet its obligations, the chairman or in the event by his or her failure to do so, the custodian of the Fund's assets, shall notify the Commissioner of Insurance and the Director of Community Affairs. Past due assessments shall bear interest at the rate established annually by the Fund's Commissioners.

g.) Sexual Abuse Liability Account: The Commissioners may establish a sexual abuse liability account. Reserves, IBNR, expenses, assets, assessments and other assets for this account shall be accounted for separately. After the end of the year before the Fund has finalized its year end accounting, the Commissioners may levy a supplementary assessment if the sexual abuse claims account is negative on a statutory basis.

h.) At the discretion of the Commissioners, any supplemental assessments may be payable in equal installments for up to ten years. Deferred assessments shall become due and immediately payable if a member leaves the Fund.

6.) **Procedures governing loss adjustment and legal expenses.**

a.) The Fund engages a claims service company to handle all claims except for the JIF’s POL/EPL insurance which is handled by Summit Risk Services representing QBE North America. The performance of the claims adjusters is monitored and periodically audited by the Executive Director's office, the Fund attorney, the MEL's attorney's office, the claims department of the MEL and/or the NJUA JIF major reinsurers, C.N.A. for excess property, Munich Re

America for excess liability and excess pol/epl (JIF), as well as, Safety National for workers' compensation - MEL). Every three years, the MEL's internal auditors also conduct an audit.

b.) Each member local unit is provided with a claims reporting procedure and appropriate forms.

c.) In order to control workers' compensation medical costs, the Fund has engaged a managed care organization (MCO) whose procedures are integrated into the Fund's claims process.

d.) To provide for quality defense and control costs, the Fund has established an approved defense attorney panel with firms which specialize in Title 59 matters. The performance of the defense attorneys is overseen by the Fund attorney, as well as the various firms which audit the claims adjusters.

7.) **Coverage to be purchased from a commercial insurer, if any.**
The Fund purchases Property; Boiler & Machinery Systems Breakdown; and Automobile Physical Damage insurance from Continental Casualty Insurance Company **(C.N.A),** primary Public Officials/Employment Practices Liability from QBE North America and primary Cyber Liability from XL Insurance and Excess Liability (through the MEL) from Cowbell Cyber & Great American.

8.) **Reinsurance to be purchased**.
The Fund purchases Excess General Liability; Excess Automobile Liability and Excess Public Officials/Employment Practices Liability from Munich Re America.

9.) **Procedures for the closure of Fund years, including the maintenance of all relevant accounting records.**

a.) The Fund will utilize the Municipal Excess Liability Residual Claims Fund (RCF) to facilitate the closure of Fund years.

b.) Upon the transfer of outstanding liabilities of a Fund year to the RCF, the Fund adopts a resolution closing that year and transfers all remaining assets to the closed Fund year account. This amount is allocated by member local units using the same procedure as is used to calculate a dividend. Each month, interest is credited to the closed Fund year account by member.

c.) Each year, the Fund's Commissioners will determine if a dividend is appropriate from the closed Fund year account, and will make application to the Department of Insurance as appropriate. Further, in the event an open Fund year incurs a deficit, the Fund's Commissioners will consider an inter-year transfer from the closed Fund year account to offset the deficit. In either case, the dividend or inter-Fund year transfer will be calculated on a member by member basis.

d.) A former member may apply to the Fund's governing body Commissioners for a return of that member's remaining share of the closed Fund year account when five (5) years have passed since the last Fund year in which the member participated has been closed. The Fund's Commissioners will decide on the former member's request after evaluating the likelihood of any additional assessments from the RCF.

e.) All dividends from the RCF will be deposited in the closed Fund year account on a member by member basis.

f.) The Fund will retain all records in accordance with the Fund's record retention program.

10) <u>Assumptions and Methodology used for the calculation of appropriate reserves requirements to be established and administered in accordance with sound actuarial principles.</u>

a.) The general approach in estimating the loss reserves of the Fund is to project ultimate losses for each Fund year using paid and incurred loss data. Two traditional actuarial methodologies are used: the paid loss development method and the incurred loss development method. From the two different indications resulting from these methods the Fund Actuary chooses a "select" estimate of ultimate losses. Subtraction of the paid losses from the select ultimate losses yields the loss reserve liability or funding requirement.

b.) The following is an overview of the two actuarial methods used to project the ultimate losses.

☐ <u>Paid Loss Development Method</u> - This method uses historical accident year paid loss patterns to project ultimate losses for each accident year. Because this method does not use case reserve data, estimates from it are not affected by changes in case reserving practices. However, the results of this method are sensitive to changes in the rate of which claims are settled and losses are paid, and may underestimate ultimate losses if provisions are not included for very large open claims.

☐ <u>Case Incurred Loss Development Method</u> - This method is similar to the paid loss development method except it uses historical case incurred loss patterns (paid plus case outstanding reserves) to estimate ultimate losses.
Because the data used includes case reserve estimates, the results from this method may be affected by changes in case reserve adequacy.

11.) **<u>The maximum amount a certifying and approving officer may approve pursuant to N.J.A.C. 11:16-2.22.</u>**

☐ $10,000
- With the advance approval of the Fund Attorney, the certifying and approving officer may also pay provider bills if waiting until

after the next regularly scheduled FUND meeting would result in the loss of a discount on such bills. When the certifying and approving officer utilizes this authority, a report shall be made to the Commissioners at their next meeting.

- $50,000 Emergency Court House Authority upon the joint authorization of the Fund Attorney and Executive Director. Whenever this procedure is used, the claim shall be reported to the Commissioners at their next meeting.

ADOPTED: this 28th day of April 2021 before the Governing Body
